

Life Warranty U.S. brand at Reasonable Price

COMPUTER MEMORY

Princeton Original, DDR, DDR2, DDR3, DIMM and SODIMM memory modules are designed in accordance with the JEDEC and Intel specifications. We offer consistent chip quality and Life warranty on all Princeton Original modules without any if's, and's or but's.

FLASH MEMORY

The Princeton USB Flash drive product families are specifically designed to meet your unique needs. Each USB flash drive must comply with the Princeton quality control, testing, performance, and reliability standards. Available in capacities to 16GB, Princeton Flash drives are the best choice for your mobile storage.

USB DRIVE

They're reliable, durable, stylish and compact, making them ideal for transporting music files, digital images, presentations documents and even your favorite applications. In addition, we pre-install your favorite applications from *Portable Apps* on your USB drive.

What's PortableApps.com?

It is a compilation of free and open source applications that run directly from a USB flash drive. Some of the most famous applications made by PortableApps.com are Firefox Portable, Thunderbird Portable (Email Client) and TrueCrypt (Data Encryption). Visit Portable

Apps website for the complete list of applications that you can choose from.
